

Verbio

Biofuel and Technology

VERBIO India Pvt. Ltd.

100 % daughter of Verbio AG

VERBIO India Pvt. Limited

Founded in 2016

Office in Chandigarh

We are a **technology based company**, with innovative products and technologies developed by us.

Proof of concept

Start business in India with Straw Technology Q3/2021

Multiply concept all over India

Potential hundreds of equal units

We are the global Leader in Straw to Biogas Technology!

- two industrial scale plants running since 7 years in Germany
- 2021 we start one unit in India (Paddy straw) and one unit in the US (corn stover)

100% Erdgasqualität - 90% CO₂-Reduktion - 0% Nahrungsmittel

We will start the unit in Q3 2021!

IOCL is our partner for the filling stations
(33 to CBG/d & 100.000 to of paddy straw / a)

Verbio India Paddy Straw Harvest 2020

Largest Rake in India – Krone Dual Rotor

Slow paced to ensure maximum machinery efficiency, high compression and less breakdowns

6 to 7 tons per trolley with 18 bales

Pyramid structure to stack the bales

- **Verbio India CBG & Biomanure Technology Leadership**
 - fully integrated value chain with feedstock collection and infrastructure for large industrial scale production units

■ TRUST

- **Verbio has NO intent to Share or License its TECHNOLOGY in any form**
 - We are not an engineering company or an equipment supplier

- **Verbio has NO intent to participate in MARKET ACCESS for CBG as fuel**

- **Investors are welcome for our multiplication phase**
 - Realistic expectations for interest rates (no India interest rates)
