8. Evaluation

The Bank's independent Operations Evaluation Department prepares an audit report and evaluates the project. Analysis is used for future project design.

7. Implementation and Completion

The Implementation Completion Report is prepared to evaluate the performance of both the Bank and the borrower.

6. Implementation and Supervision

The Borrower implements the project. The Bank ensures that the loan proceeds are used for the loan purposes with due regard for economy, efficiency, and effectiveness.

5. Negotiations and Board Approval

The Bank and borrower agree on loan or credit agreement and the project is presented to the Board for approval.

1. Country Assistance Strategy

The Bank prepares lending and advisory services, based on the selectivity framework and areas of comparative advantage, targeted to country poverty reduction efforts.

2. Identification

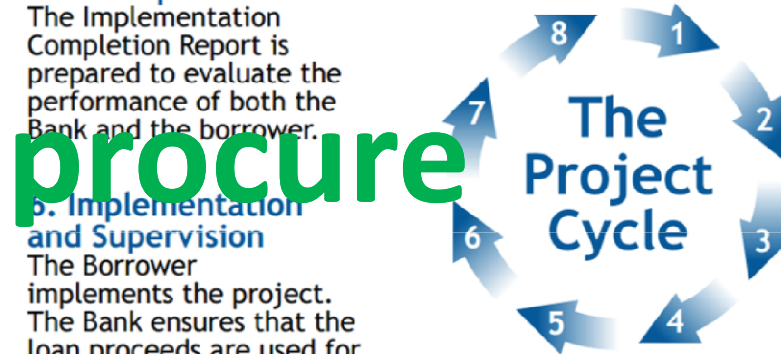

Projects are identified that support strategies and that are financially, economically, socially, and environmentally sound. Development strategies are analyzed.

3. Preparation

The Bank provides policy and project advice along with financial assistance. Clients conduct studies and prepare final project documentation.

4. Appraisal

The Bank assesses the economic, technical, institutional, financial, environmental, and social aspects of the project. The project appraisal document and draft legal documents are prepared.

financing will go to state government-backed projects. Half of this, or 30% of total lending, will go to low-income or special category states.

Key focus areas

In the next five years, the World Bank Group will focus on three key areas of economic and social transformation and inclusion. Common themes running across these areas include improved governance, environmental sustainability, private sector, and gender equality.

- **Integration:** India's massive infrastructure needs cannot be addressed through public investments alone. The strategy will accordingly focus on improving both public and private investments in infrastructure. For instance, the power sector, vital for economic

Schwerpunkte:

- Verwaltung
- Nachhaltigkeit/Umweltschutz
- Privatwirtschaft
- Gleichstellung
- Stadtentwicklung

growth, will need to build greater capacity and improve the reliability of power supply and distribution. A vibrant manufacturing sector—especially small and medium size enterprises that are critical to the creation of jobs—will require the reform of labor laws, and improved access to land and finance. Better integration would result in faster growth for low-income states converge more quickly with their faster-growing neighbors.

- **Rural-urban transformation:** "Transformation" represents the new strategy's approach. Well-managed urbanization can bring innumerable benefits to the 600 million people projected to live in India's cities by 2031. Accordingly, the new strategy aims to help India make the rural to urban shift as

productive as possible in terms of growth and inclusion and to improve the livability of urban areas, especially secondary cities where a sizeable population increase is taking place. At the same time, given agriculture's continued importance in the economic and social fabric of the country, the strategy will help India work toward raising agricultural productivity.

I. Introduction and Context

Country Context

India's power system needs to grow rapidly to fuel its economic growth and provide electricity to its growing population. During the last decade, India's economy expanded at an average annual rate of 7.6 percent, placing it among the top 10 of the world's fastest growing nations; projections are for such high rates of growth to continue. The demand for power is expected to rise to support the growing manufacturing sector and meet the rising aspirations of its people. The Indian power system is among the largest in the world, but per capita consumption of electricity is less than one

Shared Infrastructure for Solar Parks Project

Land:	Indien
Finanzierung:	Weltbankgruppe Weltbank /International Bank for Reconstruction and Development (IBRD/Weltbank-Gruppe)
Kategorie:	ENERGIEWIRTSCHAFT
Projektstand:	FINANZIERUNGSBEWILLIGUNG
Träger:	Indian Renewable Energy Development Agency Limited

Mit Mitteln in Höhe von insgesamt 100 Mio. US\$ in Form eines Darlehens der Weltbank (IBRD, 75 Mio. US\$), eines Darlehens aus dem "Clean Technology Fund" (CTF, 23 Mio. US\$) und einem Zuschuss aus dem CTF (2 Mio. US\$) wird ein Vorhaben im Bereich der Erneuerbaren Energien in Indien unterstützt. Ziel des Projekts ist die Steigerung der Solarkapazitäten durch die Einrichtung von großen Solarparks im Land. Dazu ist vorgesehen, die gesamte Infrastruktur der Parks einzurichten und technische Hilfe zu leisten.

Das Projektende ist vorgesehen für März 2022.

Assignment Description

SELECTION FOR CONSULTANTS BY THE WORLD BANK GROUP

Firmeninformationsreise zur Weltbank nach Washington

6. – 8. November 2017

Angesprochen sind Unternehmen, die Interesse haben, ihre wirtschaftlichen Aktivitäten in Schwellen- und Entwicklungsländern über die **Weltbank**, die **Inter-American Development Bank (IDB)** und die **Millennium Challenge Corporation (MCC)** auszubauen.

Das Programm soll deutschen Unternehmen einen Einblick vermitteln, wie sie sich erfolgreich an den Projekten und Programmen der Institutionen beteiligen können. Die Veranstaltung bietet die Gelegenheit, sich in Washington einen Überblick zu verschaffen und Kontakte zu den relevanten Projektmanagern zu knüpfen. Die Reise richtet sich gleichermaßen an Consultants, Planungs- und Ingenieurbüros, Dienstleister und exportierende Unternehmen.

Die Weltbankgruppe sowie die Inter-Amerikanische Entwicklungsbank (IDB) finanzieren jährlich eine Vielzahl unterschiedlicher Projekte, die ein breites Themenspektrum abdecken: Bildung, Energie, Stadtentwicklung, Gesundheit, Verwaltungsreformen und
