Our Aims

Promotion of renewable energy and energy efficient technologies

Showcase sustainable energy solutions

Implementation of projects

Knowledge transfer

Contribution to international **climate protection**

How can you participate and meet German enterprises?

✓ Foreign trade fairs

✓ Networking opportunities

✓ Knowledge transfer
✓ Information
✓ Capacity building

✓ Trade missions

✓ Fact finding missions

✓ Project development & flagship projects

Knowledge transfer

Fact finding missions

- ✓ Missions to Germany for foreign companies & decision-makers
- ✓ Visit of best practices and applied solutions

Project development & flagship projects

- ✓ Facilitating business partnerships and knowledge transfer

Capacity building

What is the Energiewende?

The Energiewende is a fundamental transformation of the energy system and re-alignment of energy policy. It is multidimensional and affects many areas.

The Energiewende started decades ago: Milestones

Continuously developed policy support has fostered steady growth of renewables in Germany.

Source: AGEBA 2018, AGEE-Stat 2019

Benefits of the Energiewende

Source: BMWi 2014, ERGO Kommunikation

The energy transition has numerous positive effects on various levels.

Next steps of the Energiewende

- Energiewende in heat sector
- Energiewende in transport sector
- Energiewende in agricultural sector
- Sector coupling
- Grid integration of growing shares of renewables
- Grid expansion
- Cross-border interconnections
- Electric mobility and infrastructure
